Why Collaborative Proposals?

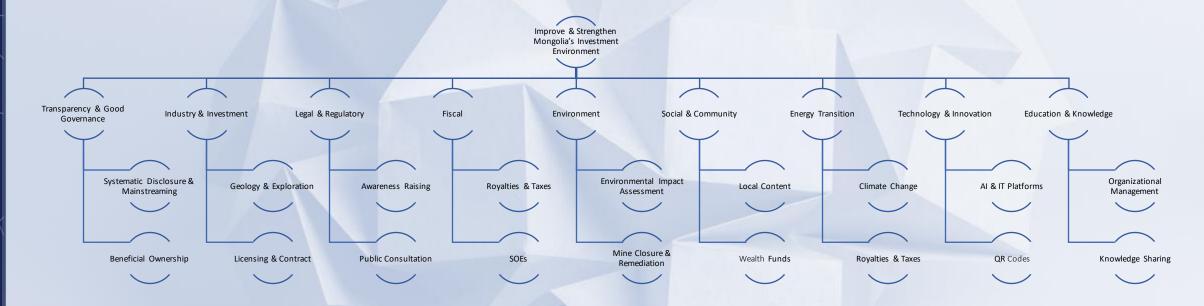

The AMEP collaborative proposal is **NOT** a grant or an award, instead it is a unique opportunity whereby:

- the collaborator proposes an activity to AMEPII that fits key program criteria and that meets key objectives,
- Selected activities are included in the AMEP II program workplan 2022-2023
- ❖ If the activity is selected, AMEP II jointly collaborates in working together with the selected collaborator in developing ToRs, a workplan and in identifying any technical experts or consultants to assist or implement identified activities.
- ❖ AMEP II manages selected partners as they implement the selected activity under the agreed workplan and outcomes.
